

HOOSIER TRAILS COUNCIL...

“Developing the leaders of tomorrow, through adventures today!”

Older Youth Programming Area - \$35,000

This program investment will help with the retention of youth and excite Scouts to return to camp for multiple years. Facility attributes include:

- ◇ Constructing a Native American village on the backside of Lake Tarzian will create a programming site for older Scouts and create mystique for campers during the Order of the Arrow ceremonies.
- ◇ Program equipment necessary to conduct high adventure activities and a storage barn to house equipment. Investments in mountain bikes, mountain boards, trekking gear and safety equipment are needed.

- ◇ Trail development that will enable the usage of more of our property and provide an out of the troop-site experience for older Scouts.

- ◇ Programming experiences that will give older Scouts a sense of adventure and the opportunity to interact with a new peer group, while enhancing their leadership skills.
