## STEM & Skilled Trades Program Area - \$150,000

This program area investment will help us to fulfill a unique niche for campers in southern Indiana and will enable youth to have different visions of their future. Facility attributes include:

- ◇ Retrofitting the former Quartermaster Building will provide a top standard advancement opportunity that will introduce Scouts to real world skills that often lead to future career paths. Science, Technology, Engineering, & Math (STEM) is an exciting program feature of Scouting for youth and annual program rotations keeps learning fun.
- ◇ This programming offering is unique to our camp in southern-Indiana and will provide programming that challenges older Scouts and makes our camp attractive to troops seeking new summer camp experiences.
- ◇ Community partners will be linked to learning opportunities, providing youth with mentors who are professionals in their fields.
- ◇ Equipment investments will provide Scouts with practical experience
- ◇ Scout advancements will be instructed, including; Animation, Architecture, Automotive Maintenance, Composite Materials, Drafting, Electricity, Electronics, Engineering, Farm Mechanics, Game Design, Home Repairs, Landscape Architecture, Moviemaking, Photography, Plumbing, Programming, Robotics, Welding, and Woodwork.
