

What size vehicle should I bring to pick up?

The following guidelines to vehicle size should be useful. They are based on many years of experience and can make your pickup go more smoothly.

Vehicle Guidelines

Mid-size car 20-30 cases *Mini-Van 60-70 cases

*Jeep/SUV 40-50 cases *Suburban/Excursion 70-80 cases

Troop Cargo Trailer or Full Size Pick-up Truck 160-170 Cases

(*Note: These vehicles are empty, no seats and no passengers.)

Please Note: If you are renting a professional grade Ryder or U-Haul truck, please ask if it is the standard height of a loading dock. This will help when loading your popcorn into the vehicle at the warehouse.
