This contemporary training program focuses on leadership and “people” skills, and not Scoutcraft or outdoor skills. Participants will learn techniques to make them better leaders, and also how to lead groups to achieve objectives. Wood Badge incorporates the best of over a century of Scouting experience in addition to drawing upon the most current leadership models used by corporate America, academic circles, and successful outdoor leadership organizations throughout the country. Skills developed from Wood Badge training will help a volunteer leader do a better job in any BSA program or at any level of involvement.
