

## Advancement in Scoutbook

There are 6 advancement statuses in Scoutbook:

The first two are self-explanatory. See below for an explanation for the last four.

- Started      Some requirements have been completed, but the requirement is only partial.
- Completed      All the requirements are completed. **NOTE: this does not indicate a completion for council records!** Depending on the unit's Scoutbook settings, a Scout or parent may be able to record completed requirements.
- Leader Approved/Recorded      Only available to the unit's key 3 and designated Advancement Chair/Coordinator to select, this status is set once the advancement is approved. This status triggers the requirement as complete to council records.
- Awarded      Only available to the unit's key 3 and designated Advancement Chair/Coordinator to select, this status is set once the advancement is awarded to the Scout and this completes the advancement process.
